

ZIEGRA ICE FOR SAUNAS AND SPAS

Pure Pleasure! The unique ice for
fountains, baths and vapours.
Refreshing, invigorating
and relaxing.

IceTechnology.
Made in
Germany

From direct application of ice onto the body to ice balls infused with essential oils:

ZIEGRA Ice is perfect for your Wellness Centre

The importance of personal well-being is becoming more recognised, and ice treatments within SPAs and saunas more popular.

ZIEGRA manufactures a range of ice machines enabling ice to be dispensed directly into a variety of vessels and in a number of ways to suit both the aesthetic design of the installation and the demands of the environment.

Comprehensive Range

- Models with daily ice production of 70 to 1000 kg
- Choice of ice size
- Range of ice discharge options
- Standard or custom build specification to suit ambient environment and location
- Tropical versions with output guaranteed at 35 deg C ambient temperature (on models with ice output of 375 kg per day and above)

Thermal baths, SPAs, health retreats, hotels and cruise ships around the world rely on Zieggra Ice Machines for the well-being of their guests.

For a variety of applications

- For direct application onto the body
- For indirect cooling, such as in a plunge pool
- For producing vapours by melting over hot coal

Pure Pleasure! Ideal crystals of ice for the perfect sauna experience in your Wellness Centre. Invigorating, refreshing, yet gentle – simply unique!

ZIEGRA Quality

- Personal advice
- In-house after-sales service operation and spare parts department
- Continuous development and quality control
- Hygienic design with a single pass, closed water system
- Guaranteed performance, even at high temperatures
- Replacement parts available for at least 15 years

ZIEGRA Ice

- Granular ice with no sharp edges, always a pleasant experience
- Ideal temperature of -0.5 deg C for gentle cooling
- Microlce size is especially well-suited for applications involving vapours
